

## How is the Triangles Activity like a system?

- Interrelated parts
- Working together
- Chain reaction
- System has to adapt
- Rules of operation
- Consequences when the rules weren't followed, sometimes
- Strategy
- Everybody understands the directions differently
- Directions aren't clear in systems
- Constantly changing perspective
- Not all parts of the system are equal
- You don't know how you affect the system—anonymous input
- Breaking the rules works, sometimes
- What was the goal of the system?
